GEN. HALDEMAN ANNOUNCES ORPHAN BRIGADE REUNION

Members of the Orphan Brigade, residing in this city and county, as well as other ex-Confederate soldiers, have received circular letters from Gen. W. B. Haldeman, Commander of the Orphan Brigade, officially announcing the coming reunion to be held in this city on Sept. 30, as follows:

"Headquarters 'Orphan Brigade,'
"Louisville, Ky., Aug. 20, 1926.
"Comrades—The following communication has been received from the Mayor and City Council of Paris, Kentucky. To this has been added the express wish of many of the citizens of Paris and Bourbon County that the Annual Reunion of the Orphan Brigade should be held in that city this year.

"CITY OF PARIS.
"Administrative Department.
"Gen. W. B. Haldeman,
"Commander Orphan Brigade,
"Louisville, Kentucky.

"The City Council of Paris, Ky., by unanimous vote extends to the 'Orphan Brigade' an invitation to hold their regular Annual Reunion in Paris, Kentucky, at such time as the officers of the Brigade may select, and respectfully suggests the last week in September as a very desirable time to hold such meeting.

"Very respectfully,
"E. B. JANUARY, Mayor.
"J. W. HAYDEN, City Clerk.

"Acting under the suggestion of the Administrative Department of the City of Paris, the regular annual meeting of the Orphan Brigade will be held in Paris, Ky., September 30, 1926, and every member of the Orphan Brigade, upon arrival at Paris will assemble at the Court House, or at such place as may be designated by the Mayor of Paris, at the hour of twelve, Thursday, September 30, 1926, there to be called to order with their regular business.

"The well-known hospitality of the good people of Paris and Bourbon county is, in itself, a strong appeal to the members of the Orphan Brigade to gather and accept that hospitality. Further notice will be given in the press between now and the time of assembling at Paris, as to the program laid out for our entertainment by the people of Bourbon County.

"W. B. HALDEMAN, Commander.
"THOS. D. OSBORNE, Adjutant-General."

INTERURBAN PASSENGER AND FREIGHT RATES INCREASE

Passenger rates will be increased 20 per cent and freight rates 15 per cent by the Kentucky Traction and Terminal Company on interurban railway fares, it was announced yesterday. The company's lines connect Lexington, Frankfort, Paris, Versailles, Georgetown and Nicholasville. This is in addition to a recent increase made in connection with increases in street car fares in cities where the company also has lines.

The increase in rates will not affect the package rates of the interurban lines, and the mileage books of the company will be sold hereafter on the same conditions as heretofore, with the same increase in price that affects the ordinary passenger rates.

This increase in rates affects all the interurban lines radiating from Lexington.

KENTUCKY WOMEN WILL GET TO VOTE

Upon proclamation of adoption of Federal suffrage amendment women of Kentucky will automatically acquire the same suffrage right as men without necessity of additional legislation. This information was furnished Miss Alice Paul, Chairman of the National Woman's Party, Washington, D. C., who inquired of Attorney General Dawson whether upon proclamation of the Federal suffrage amendment by United States Secretary of State Bainbridge Colby, women of Kentucky can vote on same terms as men without additional legislation.

TEN DOLLARS A DAY IS EMPTY CAR PRICE

Intended to halt the practice of holding coal and lumber on a siding in waiting for a rise in price, the railroads announce an increase in the demurrage rates to \$10 a day on all open cars at the expiration of the two days' grace allowed for unloading. The measure, it is said, will put a damper on holding for speculation, will expedite car handling and improve the service. It is expected to add materially in reducing coal prices.

NEWSPAPER MAN TO HEAD MILLERSBURG SCHOOL

J. Wilbur Lancaster, associate editor of the Georgetown News, has accepted the position of superintendent of the Millersburg schools and will leave with his family September 6, for his new post. Mr. Lancaster will continue his connection with the News, going to Georgetown each Saturday.

For several years Mr. Lancaster has been in the internal revenue service and for nine years before that was a school teacher.

RECEIVERS APPOINTED FOR LOCAL CONCERNS

C. L. Bell, recently of Paris, president of the Bourbon Oil & Development Co., and the Co-operative Land & Development Co., of Paris and Lexington, which were recently placed in the hands of a receiver by order of Federal Judge A. M. J. Cochran, of Maysville, has been made joint receiver with C. C. Bosworth, of Lexington, who was appointed by the Court, and will assist Mr. Bosworth in making an appraisal of the properties affected. Mr. Bosworth has qualified by furnishing the required bond, but Mr. Bell has not yet given bond, although he will do so this week.

Messrs. Bosworth and Bell have gone to Lee county to make an appraisal of the properties of the two companies located there, and after an examination of them, if they find conditions favorable, will make a report recommending that operations be continued, according to a message from Attorney J. A. Edge, of Lexington, who represents the joint receivership.

Several days ago the two companies, which are closely allied in a business way, suffered a fire which destroyed their power plant, thus crippling their production. Two strings of tools which have been drilling in Lee county are now tied up with "fishing" jobs, and as the company did not have enough ready cash to bridge over these difficulties, the receivership was precipitated by some of the stockholders. Attorney Edge says that the receivers are hopeful that the properties will be found in such a promising condition that the companies will be permitted by the Court to go ahead with their development work.

The Bourbon Oil & Development Company was capitalized at \$500,000, with the par value of the stock placed at \$1 per share. Of this amount, it is said, about one-half of the stock was sold at prices ranging from 10 cents to as high as \$2 per share. The remaining 250,000 shares of the stock is said to have been held for distribution as a stock dividend, and was being distributed as such. Aside from Mr. Bell, the President, and Mr. Sam Booth, a director, the other officers of the Bourbon Company are said to be non-residents of Paris.

The Co-operative Land & Development Company also maintains offices in Lexington and Winchester. It was organized January 8, 1919, with the following board of directors: C. L. Bell, C. B. Mitchell, George W. Wilder, R. W. Strother and H. S. Redmon, Paris. E. G. Buckley, Danville, and W. M. Buchanan. The directors elected the following officers: C. L. Bell, president; C. B. Mitchell, vice-president, and H. S. Redmon, secretary-treasurer. Shortly after C. B. Mitchell, George W. Wilder, E. G. Buckley and H. S. Redmon severed their connection with the company.

The Co-operative Land & Development Company is capitalized at \$2,000,000, par value of the stock being \$1 per share. Of this issue, it is said, 1,688,814 shares of the stock has been sold at prices ranging from 10 to 75 cents per share. A large amount of this stock, it is said, is also held by Paris and Bourbon County people. Mr. C. L. Bell, is likewise president of this company.

At the annual meeting of the stockholders January 12, 1920, the following board of directors was elected: W. M. Buchanan, Myers; F. E. Thomas, Fred Weckesser, R. W. Strother, J. N. Teager, Paris, and F. M. Kerns, Carlisle. The officers elected were C. L. Bell, president; S. English, Lexington, vice-president, and J. H. Stivers, Paris, secretary-treasurer.

Numerous suits were filed by creditors of the company in the Bourbon Circuit Court. Attachments were issued against the furnishings of Mr. Bell's home and were to be sold by the Sheriff on August Court day, but the attachment was lifted when Mr. Bell paid the claim. Later they were again attached and advertised to be sold September Court day.

The company also operated a chain of stores for the sale of merchandise. It is stated that the appointment of a receiver for both companies was done at the request of President Bell to stop litigation, which was hampering the operation and development of the two companies and destroying their assets. The capital stock of both companies is owned principally by Central Kentucky investors.

RUNAWAY BOY IS FOUND.

Paris police authorities have received information to the effect that Raymond Snoddy, fourteen-year-old boy of Advance, Greenup county, for whom they had been asked to make a search in this vicinity, had been found and returned to his home. The boy, who disappeared mysteriously from his home three weeks ago, was thought to have come to this section of the State and the city and county authorities were asked to keep a lookout for him.

The missing boy was located by his father, Andrew Snoddy, at a point three miles from Logan, West Virginia. The boy had run away from home and made his way to Logan, where he had secured employment in carrying water for a local contractor. He readily agreed to accompany his father back home. He stated that he had grown tired of the routine life at home, and wanted to make his own way in the world.

CANTRILL WILL HEAD DEMOCRATIC ORGANIZATION

At the personal request of Gov. James M. Cox, Democratic nominee for the Presidency, Congressman J. Campbell Cantrell, of the Seventh Kentucky District, has yielded to the importunities of Chairman George White, of the Democratic National Committee, and has accepted appointment as chairman of the organization department of the Democratic National Campaign Committee.

Mr. Cantrell accepted the appointment and before night he had his office force organized and his work under way. South Trimble, former Congressman from Kentucky, and Joe Morris, who has been with Congressman Cantrell as secretary for many years, have been selected as assistants.

Mr. Cantrell, National Committee women from Kentucky, also will assist at the national headquarters in the work of organizing the Democratic women, while at the same time paying special attention to the work of committee women in Kentucky.

Mr. Cantrell will be in full charge of the work of organization work at the branch headquarters during the campaign. It is the plan of Mr. Cantrell to work in complete harmony with the various State organizations and to use every effort to put the full strength of the National Committee behind the chairman of the various States in their work for Democratic success.

Mr. Cantrell has served as campaign chairman in Kentucky and realizes the advantages of close cooperation between State organizations and the National Committee. It was Mr. Cantrell's work in the organization of Kentucky for Governor Cox and his assistance in organizing forces which helped in large measure to bring about the Governor's nomination that caused his selection to head the work of organization for the National Committee. Those who know of Mr. Cantrell's success as an organizer feel certain he will bring about the usual successful results in the present campaign.

TO RECEIVE VICTORY MEDAL APPLICATIONS.

During the week of the Blue Grass Fair, August 20 to September 4, a special field clerk will be in the Lexington army recruiting station to take applications of former service men for victory medals. Every ex-soldier who comes to the Blue Grass Fair is requested to bring his discharge along, so that he will be able to make application for the medal.

Service men are invited by Sergeant Alger Hanks, in charge of the Lexington recruiting office, to make his office their headquarters during their stay in the city and to leave packages or other personal belongings which they may not care to carry about with them, at the office.

MARYLAND COMMISSION TO STUDY KY. METHODS

The Maryland Racing Commission will go to Kentucky and New York to study racing problems as they are handled in those States.

The members of the Commission are anxious to get a comprehensive line of the system by which racing is handled elsewhere, particularly in Kentucky, where it is said to be most practical and up-to-date. The Commission will go to Lexington first where the Blue Grass State Commission makes its headquarters. There they will make a study of the system employed to keep the Commission in touch with the various race tracks.

The Maryland Commission is expected to install a filing system, which will give them the same information that is in possession of the Jockey Clubs.

The date for the Commissioners' departure has not yet been set. When the Commission has completed its Kentucky trip it will go to New York.

REPUBLICANS TO ORGANIZE CAMPAIGN COMMITTEES

Republicans in Kentucky this fall will be asked to enroll in one of the Republican clubs to be organized under auspices of the Republican Campaign Committee in every precinct in the State.

Establishment of a club bureau as a part of the campaign organization was announced at Louisville by Chesley H. Sarcy, chairman of the campaign committee.

The bureau, to be established immediately, will be in charge of Richard C. Stoll, of Lexington. He will surround himself with numerous assistants, whose duty it will be to visit the various counties and form county bureaus.

A club may be organized under any name so long as the idea is conveyed it is a Republican organization. Harding and Coolidge clubs already have been organized in various counties throughout the State.

PARIS BOY MAKING GOOD

During the absence of Managing Editor James M. Ross, of the Lexington Leader, who, with Mrs. Ross, is taking a vacation at Niagara Falls, "and other points of interest in the East," Wayne Cottingham, imported from Paris to Lexington, is discharging the duties as managing editor.

From his first entry into the newspaper game Wayne Cottingham's progress has been steadily upward. As a reporter on the staff of The Leader he has blazoned a star on his desk, and proved his fitness for the work. As permanent managing editor of The Leader that paper would gain, and Mr. Cottingham's promotion would be a well-merited reward to a faithful and thoroughly good newspaper man.

In this there is no disparaging Mr. Ross's ability or desire to displace him, but if any emergency should arise causing a change in The Leader's editorial management, we, feeling a personal interest in Mr. Cottingham, are sure The Leader would naturally turn to him as pilot of the editorial ship.

KNIGHTS OF PYTHIAS MAKE CHANGES IN RULES

Grand Keeper of Records and Seal J. W. Carter, of the Kentucky Knights of Pythias, reports the proceedings in brief of the Supreme Lodge at Minneapolis the previous week.

Under the provisions of a new Pythian statute, boys of 18 may be admitted to membership. Heretofore the age minimum has been 21 years.

Under a new law, effective in sixty days, no more members may be suspended for non-payment of dues, but all such members are placed on their honor with a period of probation and if within a certain time they fail to pay their dues, charges are preferred and they are expelled from the order.

Multiplicity of cards for members is avoided by the adoption of one general card for each member, which continues his entire Pythian history.

After June 30, 1921, no more printed rituals will be used in Pythian lodge rooms, one only being allowed to each lodge for purposes of instruction, the others all being in code or cipher. The semi-annual password is abolished and an annual password substituted.

Money paid by Pythian Knights into the war relief fund is to be refunded to them through their Grand Lodges. Grand Keeper of Records and Seal Carter hopes that all Kentucky members will donate their gifts refunded to the Pythian Home fund.

IN CLOTHES

REAL economy in clothes consists not in spending the least possible amount of money, but in getting the greatest possible amount of value for the money expended.

It is because this store seeks to give value above all else that we feature such smart garments that are made of all wool fabrics, firmly woven and full of wear.

Sewings are strong and long-lasting—fit is superb—outlook and outlast clothes of less careful construction. Simply overflowing with quality and value.

TEACH SCHOOL CHILDREN HOW TO FIGHT H. C. L.

As a new method of fighting the
increase in the high cost of living
and insuring economy in the next
generation, the school children of
Kentucky are to be taught thrift
along with reading, writing and
arithmetic.

Superintendent George M. Colvin
is co-operating with the Depart-
ment of Justice in its fight against
the high cost of living, and has en-
dorsed the work of Mrs. A. H. More-
head, of Lexington, State Chairman
for Kentucky in the campaign, who
is visiting the county institutes and
explaining to teachers how they
may help to bring down prices.

Government bulletins having the
endorsement of Superintendent Colvin
are being distributed to teach-
ers for use as textbooks in thrift.
Some of the points brought out in
the publication follows:

It is the duty of loyal Americans
to produce wealth as well as to con-
sume it, and to give an honest day's
work for a fair day's wage.

Each one must do his share to
produce the food, clothing, coal and
raw materials for building and
manufacture for which the world is
in need.

Wise buying and use is as essen-
tial as full production, and women,
who expend 90% of the money in-
vested in food and clothing, should
try to get the best possible return
for each dollar spent.

Saving is essential to good citi-
zenship, and a little should be saved
each day by buying only what we
really need and what gives best
value.

Better spending will mean better
living, better men and a better
country for us all.

He who makes more than a fair
profit is as much an enemy of his
country as he who fires a bullet at
its flag.

Each must do his part to bring
our country back to a condition
where food, clothing, fuel and shel-
ter may be had at a fair price.

Food will stay high and make
other things as long as there are so
many mouths to feed and so few
hands producing food. This means
to the country boy, "Stay on the
Farm," and to the city boy, "Seek
your fortune from the soil."

If prices stay high we will all be
to blame because we have not pro-
duced more, used less, or both.

The trouble with so many at the
grade crossing is that they do not
get across.

COX ON TRAIL OF REPUBLICAN SLUSH FUND.

DAYTON, O., Aug. 26.—A request
on Will H. Hays, chairman of the
Republican National Committee, for
information regarding Republican
campaign funds was made Sunday
night by Gov. James M. Cox, Demo-
cratic Presidential candidate, who
came here Saturday from Columbus.

Mr. Cox declared that Mr. Hays'
statement Friday regarding Republi-
can funds was not a reply to the Gov-
ernor's charges that the Republicans
were raising a fund of \$15,000,000.

"I was very much gratified," said
Mr. Cox, "that Mr. Hays made his
response but as I read his statement
it's no denial. He says the irregular
preliminary estimate is \$3,000,000.
That doesn't mean anything."

"I want Mr. Hays to tell us into
how many divisions the country was
divided by the Republican managers.
I want him to tell us how many sub-
divisions there are and what terri-
tories each covers, and incidentally
I want him to tell what the quota was
that was imposed on each district."

"He had spoken publicly often
about these quotas and the public is
entitled to this information. The
Senate Investigating Committee will
insist on it, and why not have it
now?"

In addition to his statement Sun-
day night Mr. Cox said that in his
speeches late this week he would deal
further with the question of Republi-
can finances. He has promised evi-
dence to support his charges that
\$15,000,000 was the Republican "low
mark with the sky apparently the limit."

The Governor Saturday received a
telegram from Senator Reed, Demo-
crat, Missouri, of the Senate Investi-
gating Committee, regarding infor-
mation to be given the committee.
Mr. Reed said the committee would
resume its inquiry Sunday in Chi-
cago and that everything essential
would be given "careful and thor-
ough" investigation.

That "a great deal of money is to
be expended outside of the Republi-
can National Committee" fund was
stated by Mr. Cox in commenting on
New York newspaper reports of sub-
scriptions to an alleged history by
William Barnes, Jr., New York Rep-
ublican leader.

Mr. Cox was informed of the de-
nial made Monday night by Senator
Warren G. Harding, his Republican
opponent, of the \$15,000,000 fund
charges. The Governor said that he
had no comment to make at this time.
His statement calling on Mr. Hays for
information was made prior to his
knowledge of Mr. Harding's denial.

BURLEY TOBACCO MEN MEET

Preparation of constitution and
by-laws and application for a chap-
ter will be taken up to-day, when
the first meeting of the organization
committee of the Burley Tobacco
Growers' Association is held. The
session was called Saturday by John
W. Newman, of Woodford county,
chairman. It will be held at the
Phoenix Hotel, in Lexington.

The members of the organization
committee, appointed and approved
in the convention of tobacco grow-
ers of three States held last Wed-
nesday, are: John W. Newman,
and E. M. Mansfield, Carrollton, ex-
officio members; David Prewitt,
Clark county; Victor Bradley, Scott
county; T. B. Hill, Montgomery
county; Martin L. Harris, Rising
Sun, Dearborn county, Ind., and O.
C. Chapman, Clermont county,
Ohio.

The committee, according to its
chairman and members, intends to
rush the perfection of the organiza-
tion of the association. It is gener-
ally realized among growers that
unless the association is in full op-
eration with its estimated 50,000
members before snow flies and the
loose leaf market opens, thousands
of growers will be crushed in the
latter days of the sales season, as
well as during the opening weeks.

A census of the 1920 Burley crop
and formation of plans for a system-
atic reduction of tobacco acreage in
1921 are the first two big steps to
be taken by the association. In the
opinion of leading growers it is ab-
solutely necessary that a census of
this year's tobacco crop be taken.
A banner production of tobacco is
looked for and the manufacturers
are known to be already over-
stocked in certain grades. Unless
the census is taken and a plan
worked out whereby the 1920 to-
bacco crop can be placed on the mar-
ket in amounts small enough to be
digested without choking and the
resultant downward trend in prices,
disaster is sure to follow, well-in-
formed tobacco men say.

HOUSE AND CONTENTS BURNED

A frame house on the farm of J.
Frank Clay, on the Winchester
pike occupied by Thos. Myers and
family and E. B. Richards, was
destroyed by fire, together with all
its contents. The fire originated in
a clothes closet and was beyond con-
trol when discovered. The loss is
about \$2,000 on the residence, while
the loss of personal property to the
occupants amounts to about \$1,000.

PREWITT FAMILY REUNION

The annual reunion of the Prewitt
family, will be held at Oil Springs,
in Clark county, on August 28.
The reunion, as customary, will
take the form of an all-day meet-
ing, with dinner served picnic fash-
ion. The meeting of this year prom-
ises to be the best attended held in
years. Many of the Prewitt de-
scendants reside in this county.

BOURBON WOMAN INJURED

Mrs. Russell Soper, of near Little
Rock, sustained cuts and bruises
about the face and neck, in Win-
chester, while driving on Main
street in her auto. The machine's
wheels caught in the street car
tracks, throwing Mrs. Soper against
the windshield. The car was slightly
damaged, and was sent to a garage
for repairs.

INTERESTING COAL STATISTICS IN REPORT

WASHINGTON, Aug. 26.—The
average cost of a ton of bituminous
coal, on cars at the mine's mouth, is
\$2.76.

The average selling price of a ton
of soft coal, by the operator, f. o. b.
the mine, is just 50 cents more, or
\$3.26.

Yet today the retail price of coal,
even in cities adjacent to mine dis-
tricts, runs from \$8 up—principally
up. Here in Washington, today,
for instance, it is \$9.75, if you can
get it. Often, before one can get it,
he must tip the quoted price by 50
cents or \$1 a ton.

Using the Washington price as a
basis for comparison, however, it is
seen that the price to the consumer
is just three times the average price
at the mines.

Transportation and middlemen
have swallowed twice as much as was
required to pay miner who dug it,
buy the supplies necessary for its
mining, pay a bank value to the mine
owner and allow him a margin of
profit.

The costs given are not those of a
single non-representative district, but
the average costs of representative
operators in all districts.

The average labor cost in produc-
ing a ton of soft coal, the Federal
Trade Commission's figures show, is
\$2.04. The average cost of mine
supplies is 31 cents per ton and the
average of other general expenses 41
cents.

The average price received by the
operator, as shown by 812 returns,
is \$3.25 per ton, ranging from \$2.92
in Michigan, Iowa and Kentucky, to
\$3.68 in Missouri, Kansas, Texas,
Oklahoma and Arkansas, in the cen-
tral competitive field, including
Illinois, Indiana, Ohio and the South-
west district of Pennsylvania, the
sales realization figure is \$3.02 a
ton, and in West Virginia, Virginia
and the central Pennsylvania dis-
trict \$3.51 per ton.

The explanation given by many re-
tail coal dealers is that they are hav-
ing to pay from \$6 to \$8 a ton for
coal at the mines.

These mine prices are not shown
on the returns to the Federal Trade
Commission.

The returns do show that neither
the costs of producing coal nor the
average of selling prices at the mines
justifies the present prices exacted
from the consumer.

There is a dark man in the coal
pile somewhere! But no case of
drastic prosecution for coal profiteer-
ing has yet been announced by the
press bureau of the Department of
justice.

Now the department announces
that it is going over the Federal
Trade Commission's report, extract-
ing data upon which to base instruc-
tions to district attorneys covering
the filling and prosecution of coal
profiteering cases. And a special
committee of investigators may be
named.

All of which, of course, means pie
for the profiteer and pay for the pub-
lic. While the new commission "in-
vestigates," winter will come. The
winter's supply of coal will have to be
bought.

SHRINERS' MEET TO BE BIG AFFAIR.

Illustrious Potentate M. D. Royse,
is receiving practically each day a
number of names of persons from
other lodges who will be in Winches-
ter for the Shriner's Ceremonial,
which will be held on Labor Day.

The number of candidates has in-
creased wonderfully and other ap-
plications are being received daily
and from present indications the
class which will trot the "hot
sands" on this occasion will be one
of the largest in Central Kentucky.

All Novices, according to the pro-
gram will be required to meet at
the Fraternity building in the morn-
ing no later than ten o'clock and
finally place their application.
Lunch will be served the Novices in
the Fraternity building in the morn-
ing. The parade will form in front of
the Fraternity building at 1:30
o'clock for the march to the Car-
avan of Mecca where the degree will
be conferred. At 6 p. m., a banquet
will be served by the ladies of the
First Methodist church at the
church building on South Main
street to all Nobles and their ladies.
A reception dance will be given at
8 p. m. All visiting members of
the lodge are extended a cordial in-
vitation to be present for the Cere-
monial and the other entertainments
which will be offered.

Large circulars have been mailed

inviting them to be present for the
Ceremonial and to bring their
brother members with them.

WILL DIVIDE LARGE ESTATE AMONG HEIRS.

The will of Wm. Fitzgerald, who
died at his home near Centerville,
this county, several days ago, was
admitted to probate Friday in the
County Court before County Judge
George Batten. The estate, which
is valued at about \$80,000, is to be
distributed between Mr. Fitzgerald's
two sisters, Mrs. Mollie Sweeney
and Mrs. Margaret Byron, his
two brothers, John and Joseph Fitz-
gerald, and the children of his de-
ceased sister, Mrs. Della Welsh.

No part of the estate was left to
the children of his deceased brother,
Thomas Fitzgerald, as, according to
the testator, they had already re-
ceived all he wished to leave them.
John Fitzgerald was named as ex-
ecutor. Mr. Fitzgerald accepted the
trust, and qualified by furnishing
bond in the sum of \$30,000. Papers
have been filed in the office of Cir-
cuit Clerk Wm. H. Webb by the
heirs of Thomas Fitzgerald, asking
that the will be set aside.

Perhaps the price of milk will
have to be raised again because
there is so much grass that the cows
are overworked trying to eat it.

SPECIAL NOTICE—Dr. Frederick
Jacobson says that phosphates are
just as essential to any woman who
tires easily, is nervous or irritable,
worn out or looks haggard and pale,
to make a strong, robust, vigorous,
healthy body, as they are to make
corn, wheat or any vegetable plant
grow strong and healthy. The lack
of phosphate is the cause of all en-
emic conditions and the administra-

Bulgarian Blood Tea relieves and corrects constipation, indigestion, sour, gassy stomach, kidney and liver ailments. The Flame of Life is Rekindled. URGES STATE REGISTRY OF BIRTHS

Legislation creating in each State the office of registrar of vital statistics, upon which would devolve responsibility for obtaining the registration of all births and deaths, is proposed in a report of the Committee on Vital Statistics submitted to the National Conference of Commissioners on Uniform State Laws in session in St. Louis. Such statistics are declared essential properly to enforce child labor, workmen's compensation and universal military service laws.

"UNCLE BEN" AT 77 NOW TELLS SECRET

Couldn't Eat a Square Meal For Seven Years—Spent a Fortune, On Health

"I wouldn't be without Tanlac if it cost five dollars a bottle," said B. H. Anderson, of 235 Ludlow street, Cincinnati, Ohio. Mr. Anderson, or "Uncle Ben," as he is called by his many friends, although now seventy-seven years of age, does not look to be past sixty and says since taking Tanlac he feels as well as he did at the age of sixteen. He was a resident of Batavia, Clermont county, Ohio, for seventy-two years, was a blacksmith at Summer Side, Ohio, for thirty-five years and is highly esteemed by all who know him. "For the past eleven years," said "Uncle Ben," "I had been suffering terribly with my stomach. I was under treatment a number of times and spent a small fortune trying to get well. I suffered from what was called acute indigestion, and for seven years I wasn't able to eat a square meal, lived mostly on milk and toast and if I ventured to eat something a little heavy I simply suffered agony with pains in my stomach and chest. Even the lightest food made me sick. I was also badly constipated and had sick headaches. I had to give up my work, as it was all I could do to get around, just couldn't walk any distance without getting dizzy and would have to sit down to keep from falling. Why, people thought I was going to die, for I just suffered day and night and couldn't even get out of the house. "I started taking Tanlac five years ago and in a few days got so I could eat just anything. It simply made me feel fifty years younger and to-day I feel as well as I did when I was a boy. Since I began taking Tanlac I have actually gained forty pounds in weight and am heavier than I ever was in my life. I would not be without Tanlac if it cost five dollars a bottle and I just can't say too much for it." Tanlac is sold in Paris at Peoples' Pharmacy. (adv)

A LITTLE VACATION

Summer is on the wane, schools will soon be open, and any vacation schemes which have not been accomplished must be gone about without delay, or before it seems possible fall will be here, with its inevitable return to the steady grind.

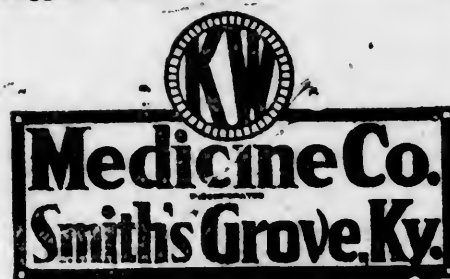

It is late for the defrauded or neglected vacationists to plan for any extensive trip, but not too late for taking shorter trips, by trolley or automobile, out into the country near home. There is as much food for pleasant experience, for new and refreshing thoughts, in these nearer beauty spots as in the highly advertised resorts far away. It is the newness that counts, not the size or distance or cost.

A summer in Europe or in one of the great national parks is a fine thing. But two hours a day, or two days a week, or two weeks altogether, spent under the trees or along the streams near home, are not so bad, and he who missed a big outing will find, healing to mind, body and spirit in the little trip. After all, half a loaf is better than no vacation.

Another handicap the comic cartoonists labor under is that the floor-sweeping machines are less handy than a broom for a lady to hit her husband with.

RAZING LANDMARK MADE FAMOUS IN STORY

Razing this week of the cupola on the old church at Ripley removed a landmark of antebellum days made famous by the story of "Uncle Tom's Cabin." It became unsafe and was torn down by workmen who are now building a belfry to inclose the steeple.

The building formerly was the property of the Presbyterian congregation of which the Rev. John Rankins was pastor, and who, with members of the church is said to have concealed a number of slaves for safe keeping until they could be sent North to a place of safety. It was there, it is claimed, that "Uncle Tom" found a friend in the Rev. Mr. Rankins and was shielded from slave traders until after the emancipation proclamation was issued by President Lincoln.

The Presbyterian congregation later sold the edifice to the Christian church, which still worships there. It is said Rev. Mr. Rankins had used the cupola as a lookout on a number of occasions, as it commanded a view of the Kentucky hill.

NEW RED CROSS BUTTON

The Red Cross button for the fourth roll call is a lithograph metal button similar to the one used last year, the figures 1921 being substituted for 1920. It is hoped that the button will be generally worn during the coming roll call, for there is no factor of the enrollment of members more helpful than the universal display of the Red Cross emblem. Chapters and chapter workers are urged to see that every member enrolled at the coming roll call is provided with and wears the 1921 Red Cross button.

EDITORIAL FLINGS AT THIS, THAT 'N TOTHER

We suspect that many a husband who doesn't know any more than to use the guest towel will presume to tell his wife how to vote.

Mighty funny it's so hard to get a load of coal into the cellar these days when the cellar hold so much attraction for everybody else.

It may be better late than never, but what do we gain by finding out in August from Washington statistics that prices declined in July?

Bernard Schmedes, Cincinnati policeman, suspended for refusing to wash towels, evidently did not want to be classed with the Prohibition candidate.

With everything else going up it is not surprising that an American contestant in the Olympic games should have to jump higher than usual this year.

A Muncie, Ind., man claims he found the word "Harding" spelled in the mind of an orange he had eaten. We'll agree to swallow that story if the Muncie man will swallow the rind!

The "added attraction" at the Opera House some days ago who gave a "forecast of the future of Paris" neglected one very important thing in her "forecast." She did not tell us who will be the next Mayor.

Georgetown News, in commenting on the game between Centerville and Newtown teams, says: "In the beginning of the fourth inning Saltee knocked a two-bagger, and scared a runner for Newtown." Very naturally. Scared is the proper word, judging by the way the runner pulled for the home plate.

An English artist, E. O. Hoppe, is in this country to make portraits of the five most beautiful American women. It is said that he will not come to Paris, Ky., for fear he should be tempted to complete his quintet here to the utter chagrin of all the rest of the country. He wouldn't have to go any further in his search for models.

One of the most ardent defenders of "the good old days" in Paris says that, even though these are prohibition days in Paris, you will find in the restaurants and hotels of the city that the corn is stewed, the beets are pickled, the knife has an edge, the plate has a bun, the mackerel is soured and the tables are full.

A foolish Paris woman has said that what Paris men need is more brains or more active brains, rather. We beg to differ with the foolish lady. The men of Paris are just as brainy as those of any other place, but some of them are constitutionally opposed to promoting active use of their muscles. Perhaps the foolish lady has one of that sort.

Editor Warren Fisher, of the Carlisle Mercury, made an auto trip to Paris this week, searching for an idle linotype operator. He was unsuccessful in that, but had the pleasure of making a thorough inspection of the roads between Millersburg and Paris, and finding Main street in Paris not quite so rough as on previous visits. We're bound to get right after a while, Warren!

Lexington Herald's society page carried a note with the heading, "Keep The Bacon Burning," the body of the item relating to a fund being raised to erect a memorial to the memory of Dr. Anna Howard Shaw, who "held aloft the bacon to light women's way to political liberty," etc. As between bacon and beacon, we prefer the bacon, with eggs on the side, but the cook need not "keep the bacon burning."

Automobile drivers are promptly arrested in Georgetown, Shelbyville, Danville, and a number of other Central Kentucky towns for violating the law by driving with out-opens. But how about Paris? And also, why not put a ban on those glaring headlights on the interurban cars? It would benefit the public very much if those lights were dimmed while going through the streets of the city.

A handsome young Paris business woman recently lost her purse, containing a sum of money—and, of infinite more value, her vanity case—and, of course, mourned the loss as being almost irreparable. When asked by her employer why she didn't advertise for it, she said she didn't think there was much chance anyone being honest enough to return lost money. But the next day the purse was found and brought to this office, where it was recognized and returned to the owner. Still, it was a kind of advertising that did pay.

A porch party assembled at a Pleasant street home the other night discussed among other things former camping trips. The ups and downs, the pleasures and mishaps of camp life passed the ordeal of verbal dissection. One of the party, a young bachelor, injected his opinion as follows: "Everybody is always talking about God's great outdoors, and wishing they could spend more time there. I have heard it

NOTES OF THE LODGES.

Paris Lodge of Rebekahs held an interesting and enjoyable meeting last night in their lodge rooms. The 69th anniversary of the Rebekah Degree of Odd Fellowship will occur on September 20, and will be appropriately observed by the Paris lodge.

Several candidates received the advanced work at the meeting of Rathbone Lodge, K. of P., held last night.

At the recent meeting of Bourbon Lodge, I. O. O. F., the Second Degree was conferred on J. O. Marshall, Edgar "Smyle" Dodge, James Williams and James E. Downing. One petition for membership was received. Candidate Marshall received the Second Degree of the work over two years ago.

Reports from the subordinate lodges of the Odd Fellows in Kentucky show a gain of 1,700 members during the past six months. There are yet 75 lodges to hear from.

The girls' orchestra of the I. O. O. F. Home have returned from their trip through Southeastern Kentucky, where they played at many cities in the interest of the endowment fund. The girls report a very fine trip. Figures show that the more than \$30,000 was raised on the trip for the fund.

The Knights of Pythias are emphasizing good citizenship and good government among its members and also the teaching of the children of the country love for the flag and the real meaning of Americanism. Much publicity through the use of newspapers throughout the country is aiding the movement.

Cynthi-Anna Temple of Pythian Sisters was instituted at Cynthiana last week, with twenty-five ladies and thirty-five knights as charter members, by Mrs. Dena Chapman, Past Grand Chief, accompanied by twenty ladies from Covington to assist in the work.

Remember, the Girls and the Boys Band and all the children from the Odd Fellows' Home at Lexington, will be in Paris next Sunday, August 29, at the Paris Grand Opera House. A pleasing program of musical numbers will be furnished by these organizations, and addresses will be made by prominent members of the order. The exercises will begin at 2:30 o'clock. The principal address of the afternoon will be made by Hon. M. M. Logan, of Louisville. The entertainment will be given for the benefit of the Endowment Fund drive, which is in progress throughout the State. Every Odd Fellow in the city and county should feel it his duty to be in Paris and attend this concert and meeting.

A FEW WORDS TO CITIZENS OF BOURBON

THE NEWS is proud of Paris and Bourbon county. This is a humming business center, and a natural trading spot for a very much larger population. It is the normal nerve center for a wide and rich farming community, and it is fast adding to its importance as an industrial community.

Our stores, shops and business organizations are equipped with all that is necessary to the best service—but telling you about the advantages that are here isn't quite getting it across. You will never know how good this community of ours is until you study its growth and development, week after week.

There is only one correct way to do that. It is to read the news, editorial and advertising columns of the town's leading newspaper. Every week in the year THE NEWS place at your door interesting, instructive and profitable information for about three cents an issue. THE NEWS is a paper that should be in the home of every citizen of Bourbon county. If we haven't your name, subscribe to-day, at the low rate of \$2.00 a year, delivered by mail or by carrier.

said that there never was any weather so bad but that it was better to be out in it than in out of it. Now anybody can feel that way is beyond me. I'm not exactly a recluse, but when it comes to a choice between four walls and a life in the open, give me the shelter every time. Of course I like lifting my eyes to the hills, from a motor car or a front porch, and it's pleasant to drift about on Stoner creek provided the sun has gone down, but this idea of tramping along the highway with a song on the lips and three tons of camping equipment on the shoulders is hereby left to those who like it."

With 3,000,000,000 bushels of corn in the county, there ought to be enough for the hogs and the humans, too. Come on, you restaurants and feederies, with your corn cakes, old-fashioned mush, and all such things that are calculated to tickle the palate. We're in a receptive mood at meal time.

HOME-GROWN STUFF.

Home-grown watermelons and canteloupes have made their appearance on the local markets at very high prices. It is stated that the crop is very short this year, causing the growers to ask higher prices of the retailer, who, in turn, gets his profit from the consumer.

"RUST" ATTACKS TOBACCO

Bourbon county farmers are complaining of the inroads and damage done to tobacco by rust and wildfire, which have again made their appearance in many fields. It is said that the crops affected will be almost a total loss, and that the damage done will amount to several thousand dollars.

A large stalk of the infected tobacco taken from a crop of ten acres on the farm of John Redmon, near Paris, is on exhibition in the window at the Paris Billiard Co.'s place of business, at the corner of Fourth and Main. To the layman the "rust" may mean little, but to the experienced tobacco man, who knows of the damage it can wreak, it signifies almost ruin. Those who have been reading of the prevalence of "rust" and "wildfire" in tobacco fields, can get a good idea of their meaning by inspecting this stalk of tobacco.

REAL ESTATE TRANSACTIONS

The Paris Realty Co. sold yesterday privately for Miss Clara Bacon, a house and lot, located on Sixteenth street, to G. T. and Cora E. Wagoner, for a price not given out for publication.

SUIT FILED FOR RECEIVER FOR CARLISLE FIRM

A suit was filed in the Nicholas Circuit Court at Carlisle, Monday, by W. M. Mathers, one of the incorporators of the Howard Hardware Company, asking that a receiver be appointed to take charge and liquidate the business of the concern. William Howard, Jr., formerly of Paris, is at the head of the company, which is incorporated. On Tuesday, Judge Fryer appointed U. M. Swinford as receiver. The business will be conducted at usual under the direction of Mr. Swinford until the affairs of the corporation are wound up. Mr. Howard is a brother of Logan Howard, the Paris grocer.

Another encouraging sign of the times is that the abuse of the long suffering word "camouflage" is being abated.

KENTUCKY REPUBLICANS TO HOLD CONFERENCE

Republican State Chairmen and the heads of their organizations from Ohio, Indiana, Kentucky, Illinois, Michigan, Wisconsin, Minnesota and other middle and southwestern States will confer with Will Hays, Chairman of the Republican National Committee and his assistants at Chicago, September 1 and 2, it was announced in New York. Representatives of Eastern States including West Virginia, will meet August 24 and 25.

The purpose of the conference, Mr. Hays said is to review and pass other State campaigns and perfect unification of State and National efforts.

WILL TRY NIAGARA FALLS

William Barbrick, a New York farmer, who recently made known his intention of attempting to ride Niagara Falls in a barrel, announced a secret container for his plunge. Barbrick, who served during the war in the British merchant marine, said he would apply for permission to try the hazardous feat which this year cost a British barber his life.

IMMIGRANTS COMING IN

At least 25,000 immigrants a week are expected soon to begin passing through Ellis Island, at New York, according to Frederick A. Wallis, immigrant commissioner. Steamship companies have reported, he said, that the incoming tide for the next few days will be limited only by the capacity of the West-bound ships.

STATE RAILWAY COMMISSION DENIES JURISDICTION

FRANKFORT, KY., Aug. 26.—The State Railroad Commission ruled Monday that it had no power to prevent the 25 per cent increase granted railroads by the Interstate Commerce Commission from applying to interstate rates.

The new rates, which affect passenger, freight and pullman service, will go into effect in the State Aug. 26.

The American Railway Express Company will not be able to put its increase of 12 1/2 per cent into effect at that time as the law placing express, telephone, steamboat and gas companies under jurisdiction of the State Railroad Commission provides that no change shall be made in rates except after not less than thirty days' notice to the commission. A different law governs railroads.

The State Railroad Commission met today to consider the increased intrastate rates proposed by the railroad and express companies and it was the unanimous opinion of the members that the commission had no authority in the matter.

In the absence of Attorney General Dawson the question was submitted to Assistant Attorney General Fowler, who concurred in the conclusions of the commission.

The American Railway Express Company, through its representative, H. C. Tubb, Chattanooga, Tenn., asked the commission to waive the thirty days' notice in order that the increased rates could go into effect September 1. After discussing the matter with Assistant Attorney General Fowler the Commission decided to take no action on waiving the notice until the next meeting, September 2. It gave the express company permission to file the increased tariff.

Mr. Tubb produced figures showing that the company had operated at a deficit of more than \$5,000,000 in 1917, \$31,000,000 in 1918 and \$25,000,000 in 1919. These figures, he said, showed conclusively that the company could not continue to serve the public unless it was permitted to put into effect immediately the increased rates.

In addition to the 12 1/2 per cent increase, the express company has filed a tentative request with the Interstate Commerce Commission and the State Railroad Commission for an extra 15 per cent increase in rates to take care of the increase in wages granted express employees by the United States labor organization. The increase was not discussed at the meeting.

Is Your Blood Starving For Want of Iron?

Without Plenty of Iron In Your Blood You Don't Get the Strength and Nourishment Out of the Food You Eat

When over-work, lack of sleep, improper food and impure air sap the iron from your blood and make you feel weak, nervous, irritable and out-of-sorts, it is important that you should at once put more iron into your blood. Without iron the blood loses the power to change food into living tissue and therefore nothing that you eat does you the proper amount of good because you don't get the full strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. Because of this steady starvation of the blood and nerves people often become weakened, tired-out, nervous and run-down and frequently develop all sorts of symptoms. But the moment organic iron—Nuxated Iron—is supplied a multitude of dangerous symptoms disappear in most cases, the flesh becomes firmer, the muscles get back their strength and the roses of health bloom—a check that were pale and sickly looking.

No matter what other so-called remedies you may have tried, if you are not strong, vigorous, hearty and well, owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. You can obtain Nuxated Iron from your druggist on the distinct understanding that if you are not fully satisfied your money will be refunded.

THE POLITICAL REVIEW

Governor Morrow was the principal speaker at the picnic of the Middlesex Republican Club, in Boston, the official opening of the Massachusetts State campaign. It is estimated that 50,000 people were in attendance. In consequence of this engagement, the usual "pardon day" leave was postponed until the Monday following.

Isaac G. Rice, of Paintsville, won the Republican nomination for Commonwealth's Attorney in the Twenty-fourth district by a vote of 1,288 to 1,032 for J. W. Wheeler, also of Paintsville. H. B. Conley was nominated by the Republicans for County Judge of Johnson county over W. H. Vaughn, who was appointed to the vacancy by Governor Morrow. Mr. Conley received 836 to Vaughn's 594.

Governor Marcus P. Holcomb, of Connecticut, has formally notified Will H. Hays, chairman of the Republican National Committee, that he will not call a special session of Connecticut General Assembly to act upon the suffrage amendment.

CONSTRUCTIVE AND DESTRUCTIVE

Every community possesses two distinct classes of citizens, although this community is to a certain extent an exception to the general rule. Both classes are critical as regards community affairs, but one class is constructive in its criticisms while the other is destructive. The one sees the weak spots in our municipal life, points them out and suggests rational methods for correction and improvement. The other class sees the faults, criticizes the authorities for permitting them to exist, but offers no sane suggestion for correction. The man who accepts a position of authority in any community must expect criticism. But he has a right to expect the public to refrain violent criticism unless it can suggest a method of procedure that would be an improvement over the one he employs. The public has a legitimate right to criticize its officials when it feels that criticism is due, but it should be certain of the justice of that criticism before it is uttered. A constructive critic is an asset to any town, but the destructive one is simply a knocker. Constructive criticism is always welcome to any high minded and well intentioned public official, but it is a thorn in the flesh of those who surrender to ulterior motives and forget the duty they owe to their constituents. Our own officials are constructive in both their intentions and their methods. If you see something that needs correction, tell them so. They will welcome the information. But go a little further and suggest what appears to you to be the best method of correction. It may be an improvement to what our officials would deem appropriate action. It is team work of this kind that breeds success in the garden of life.

It has just about gotten so in this country that if you offer an idea man a job of work you are in danger of making a Bolshevik out of him.

As a general thing, when a man is as old as he looks he's no juvenile.

Facts for Sick Women

Reliable Information

All American women know of the great success of Lydia E. Pinkham's Vegetable Compound in restoring to health women who suffered from ailments peculiar to their sex, yet there are some who are skeptical and do not realize that all that is claimed for it is absolutely true—if they did, our laboratory would not be half large enough to supply the demand, though today it is the largest in the country used for the manufacture of one particular medicine.

The Facts contained in the following two letters should prove of benefit to many women:

Buffalo, N. Y.—"I suffered with organic inflammation and displacement. When lifting I had such pain and bearing down that I was not able to stand up, and it hurt me to walk or go up or down stairs. I was going to a doctor without any results and he said the safest thing would be to have an operation. I met a lady who told me she had three operations and was not well until she took Lydia E. Pinkham's Vegetable Compound. I felt relief after taking two bottles of Vegetable Compound and I kept on with it until I was cured. I always use Lydia E. Pinkham's Liver Pills and they are fine. Everything used to turn sour on my stomach and the Liver Pills relieved that."—Mrs. A. ROGERS, 533 Fargo Avenue, Buffalo, N. Y.

Sacramento, Calif.—"I had organic trouble and had such terrible pain and swelling in the lower part of my side that I could not stand on my feet or even let the bed clothes touch my side. I gave up my work thinking I would not be able to go back for months. My mother advised me to take Lydia E. Pinkham's Vegetable Compound as it had saved her life at one time, and it put me in a wonderful condition in a couple of weeks, so I can keep on working. I work in a department store and have to stand on my feet all day and I do not have any more pains. I surely recommend your Vegetable Compound to all my friends and you may use these facts as a testimonial."—BARBARA J. PARKER, 3320 M St., Sacramento, Calif.

WASHINGTON GIRLS' DRESS COST SIXTY CENTS!

"It's not what you wear, but the way you wear it" and if you don't believe it just give Miss Hazel Proud of Washington, D. C., the "once over."

It's only a sixty-cent creation that Miss Proud wears when she comes to work every morning in the office of Miss Edith C. Strauss, director of women's activities in the campaign against the high cost of living in the Department of Justice. It's not sixty cents worth of silk or satin, either, although it covers all of the "requirements."

It's sixty cents worth of sugar bags. To Miss Proud goes the honor of wearing the dress well. To Miss Doris Peterson, of Bellington,

Wash., goes the glory for making a dress for "four bits and one thin dime" in these days of high prices. The dress was made from ordinary sugar sacks, or maybe it isn't possible for a sugar sack to be ordinary considering the scarcity and ascending value of its contents.

Anyway, the dress is made of sugar sacks, and is trimmed with crocheted cotton in pink and green shades. It took Miss Peterson just two hours to make the dress. But it took her longer than that to convince Miss Strauss that it cost but sixty cents.

"It just shows what one can do when one tries," said Miss Strauss. "Accomplishments like this, if more widely practised, would help to bring down the cost of wearing apparel."

ONLY FEW DOMESTIC SERVANTS AMONG IMMIGRANTS

The number of immigrants arriving at New York is increasing week by week, but the superintendent of the immigration station on Ellis Island says that there are few domestic servants among them.

Housekeepers who have waited hopefully for immigration to begin again to renew the sadly depleted supply of maids will be disappointed when they learn that the Irish and Scandinavian girls in the steerage are planning to work in factories.

PONZI'S SCHEME GATHERS HUNDREDS IN NET.

BOSTON, Aug. 26.—A list of investors in Charles Ponzi's postal coupon scheme—persons who trusted in the ability of the overnight financier to make riches for them in a month or two—looked like a cross section of the community when it was printed yesterday.

All walks of life were there—men and women of the professions, of business and of labor.

It is estimated 30,000 in all placed their money in the scheme which now is in receivership, and of these about half withdrew it with or without the 50 per cent interest which Ponzi paid before the crash. The others are relying on Federal Receivers to recover what is left.

The list runs the gamut from Judge to office boy. Former liquor dealers turned to Ponzi in the hope of recouping their broken fortunes; a wealthy spinster was there, a building contractor, business men of high standing, a sporting promoter, soldiers, real estate dealers, manufacturers, police inspectors and the ordinary laborer in large numbers.

The appearance of the list yesterday brought denials from many of those whose names appeared.

Some of those named, however, said they had regained their investments with profits of hundreds or thousands of dollars.

The investments noted ranged from \$25 to \$53,833, the latter being attributed to a man associated with Ponzi as an agent.

Denial that Ponzi is bankrupt, was made in a petition filed in the Federal District Court by Daniel V. Isaacs, his counsel. The petition demands that a trial by jury be ordered to determine the issue.

The petition will be assigned for a hearing, but action on it if the Courts grants the petition will be delayed because the Federal Jury will not come in until next month.

Meantime, the receivers will pursue their efforts to marshal Ponzi's assets, of which about \$1,000,000 worth was turned over to them by him Saturday to meet claims which a Federal Auditor estimates at \$7,000,000.

WITNESS AFTER WITNESS IN PARIS

Such Evidence Our Readers Cannot Dispute.

As we take up the NEWS week by week, we are struck by the hearty, unmistakable way in which witness after witness speaks out as Mr. Rankin does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors, living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.

Floyd H. Rankin, grocer, Lileston Avenue and Lucas street, says: "I have used Doan's Kidney Pills off and on for years and have been greatly benefited by them. At times I have suffered severely with kidney complaint. My back often pained and was lame most all the time. The kidney secretions were too frequent in passage and greatly annoyed me. Whenever I have been this way, I have always found that a box of Doan's Kidney Pills has never failed to cure me of the attack in short order."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Rankin had. Foster-McLburn Co., Mfrs., Buffalo, N. Y. (adv)

THE REPUBLICAN CAMPAIGN TO OPEN SEPT. 15.

Senator Hiram Johnson may stump Kentucky this fall in behalf of the Republican ticket. James F. Ramey, of Louisville, who has gone to Los Angeles, will extend a verbal invitation to him in behalf of Kentucky Republicans.

Mr. Ramey, who is to head the Republican Speakers' Bureau, said that the speaking campaign will not start before September 15.

"Of course, a few scattering speeches may be made before then," he said, "but I don't look for the active speaking campaign to begin before the middle of next month." As State Commissioner of Insurance, Mr. Ramey is going to attend the annual meeting of the National Association of Insurance Commissioners in Los Angeles. He is being accompanied by Mrs. Ramey and Dr. Ben L. Bruner, Louisville.

STRANGE FREAK CAUSED BY TORNADO.

Two checks, calling for an aggregate of \$450, and a photograph of two women, blown from a point in Ohio, 100 miles away, in a tornado last March, have been found near the Monroe-Wayne county line near Monroe, Mich., by W. M. Maxwell and John Bingle. The elevator at Paulding, O., from which the picture and checks were blown, was destroyed by the tornado, and three children and the elevator proprietor were killed.

Furthermore, if a young man were as prosperous after he married as while he is engaged there would be less lottery and more millinery in marriage.

OH, DEAR! MY BACK!

Merciful Heavens, how my back hurts in the morning! It's all due to an over-abundance of that poison called uric acid.

The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking "Anuric" (anti-uric-acid). This can be obtained at almost any drug store, in tablet form.

When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, get Dr. Pierce's Anuric, it will put new life into your kidneys and your entire system. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package.

MEMPHIS, TENN.—"Dr. Pierce's Anuric is the best medicine for the kidneys and for backache that I have ever taken. For some time my kidneys have been giving me a lot of trouble. I suffered with backaches and rheumatism in my joints and limbs causing me a lot of misery. On learning of the 'Anuric Tablets' I began their use and they have given me real relief when all other kidney medicines failed to help. I am glad to recommend 'Anuric' to others who suffer with this ailment."—MRS. E. C. WILSON, 620 N. Sixth St.

TWO HUNDRED DOLLAR FUNERAL FOR CANARY.

The scriptural assurance that sparrows shall not fall unnoticed was given tangible application to a pet canary bird at Newark, N. J.

Jimmy, the little songster, choked to death on a watermelon seed, and so grief-stricken was his owner, Emidio Russo-manno, a 65-year-old cobbler, that friends contributed \$200 for a funeral, including a hearse, five mourners' coaches and a fifteen-piece band.

"He sang, ah, so sweet, like Caruso," sobbed the cobbler as the little plush-lined casket, probably twelve inches, was lowered into the grave. He plans to erect a monument later.

Philosophy of a Cipher.

Consider the cipher. It amounts to nothing in itself, but when put at work with others behind a good strong figure it adds wonderfully to the value of the group. But if a cipher puts on airs and gets out in front of the procession, it becomes valueless again. Men might take a lesson and learn that their value lasts only as long as they stay on the job.

MUTUAL INSURANCE

Country people often complain of the high cost of insurance for location remote from towns, or in towns not big enough to afford city methods of protection. But millions of country people have met this difficulty by forming mutual insurance companies. These companies not merely do business on an economical basis, but they influence their policy holders to exercise the very greatest care so that the losses shall be kept down.

Recent figures show that 1867 farmers fire insurance companies have been started in 34 States. This is one of the oldest forms of co-operation practiced among country people, and one of the most successful.

The feeling in the trade is that the market will be stronger and more active by September or October. Wool firms advise farmers to hold their wool and I agree with that advice."

MATRIMONIAL.

—A marriage license was issued Wednesday afternoon from the office of County Clerk Pearce Paton, to Roy Jones, 24, and Miss Katie Robertson, 21, both of Paris.

COURTNEY—HARRIS

—Russell Harris, 21, son of Clayborne Harris, of near Paris, and Miss Eula Courtney, 23, daughter of Mr. and Mrs. W. C. Courtney, of Scott county, were married by County Judge King, in his private office in the court house at Cynthia. The groom is a young farmer of Bourbon county.

GLENN—HONICAN

—Reynolds Honican and Miss Anna A. Glenn, both of Paris, were married Monday morning in the County Clerk's office at Maysville. County Judge Purnell performed the ceremony. Mr. and Mrs. Honican returned to Paris, Tuesday morning, and will make their home here.

HARDING—HENRY.

—James S. Henry and Miss Lena Harding, both of Nicholas county, were married in North Middletown, last week, at the home of the officiating minister, Rev. Frank M. Tindler, pastor of the North Middletown Christian church. The newly-weds are members of prominent families in Nicholas county. They will reside at the home of the groom, near Carlisle.

KIMBROUGH—WRIGHT

—At his residence, in this city, Rev. W. E. Ellis, pastor of the Paris Christian church, performed the ceremony uniting in marriage Miss Mary Louise Kimbrough and Edwin Wright, both of Cynthia. The bride is a daughter of Mr. and Mrs. P. H. Kimbrough and the groom is a son of Mr. and Mrs. E. E. Wright, all of Cynthia. The newly-weds will reside in Cynthia.

TURPIN—KILIAN.

—County Clerk Curle issued a marriage license at Cynthia, Tuesday, to Irving George Killian, 27, of Wisconsin, and Miss Ida Vernon Turpin, 21, of Paris. They were married shortly after by a Cynthia minister. The bride is a daughter of Mrs. Albert Wachs, of Paris, formerly Mrs. S. M. Turpin. The groom is engaged in business in Milwaukee. The wedding is the culmination of a romance which began several years ago, when the parties became acquainted through correspondence.

LEER—TURNER.

—When Mr. Ashby Leer, a prominent Millersburg farmer and tobacco dealer, returned to his home in that city Monday night he was presented with a telegram from Louisville, announcing the marriage in Jeffersonville, Indiana, that afternoon, of his daughter, Miss Josephine Leer, to Mr. Robert Turner, member of the grocery firm of Turner & Clayton, of this city.

The marriage of the young people brought to light an interesting romance, the principal incident of which went on record as being a most original ruse employed to elude parents and friends in an elopement. The bride had been a guest of friends at a house party given in her home town. In the afternoon she saw her father and made the suggestion to him that he take her and Mr. Turner to Lexington, where she desired to do some shopping. All unsuspecting the ruse that was to be played on him, Mr. Leer willingly complied, and the party proceeded to Lexington in Mr. Leer's car. While Mr. Leer went out to attend to some business matters the young people took French leave and motored to Louisville in the car. From there they went to Jeffersonville, where license was secured, and the marriage ceremony performed. In the meantime, Mr. Leer, growing suspicious, made an investigation, but could learn nothing of their whereabouts. He returned to Mil-

lburg, where he later received the message announcing the solution of the mysterious disappearance of his car and the young people. Mr. and Mrs. Turner returned to Paris, Tuesday, and, after a short visit to friends and relatives, left for a week's honeymoon trip, keeping their destination a secret. On their return they will reside in Paris.

The bride is one of the most attractive young women in Millersburg, and has been a visitor often in this city, where she has been greatly admired for her many graces of character. She was a student at the Millersburg College, where she would have graduated in the class of 1921. Mr. Turner is a son of Mr. and Mrs. William F. Turner, of Paris, and one of the progressive young business men of the city. He is a brother-in-law of Russell Clayton, with whom he is associated in business.

The Jeffersonville correspondence of The Louisville Herald says: "Among the marriages performed in this city yesterday was that of Robert Turner, 18, and Miss Josephine Leer, 18, both of Paris, Ky. The bridegroom obtained the parental consent by telephone."

SWIFT & CO.'S WEEKLY PRODUCE MARKET REVIEW

The volume of eggs reaching the market is smaller than for the same time last year. The demand for current use is good and prices have shown some advance during the week. Withdrawals are being made from storage stocks to meet the needs of the consuming trade.

Bitter production is holding up well; pasture conditions are generally reported as satisfactory; the market has taken an upward turn and higher prices are being paid for butterfat in country points.

Indications point to a large supply of chickens which are now reaching the marketing age. More poultry has been marketed during the week than could be used currently, and some surplus has been placed in storage.

Feeding plants are generally filling to capacity and even marketing is suggested. The plants are now generally so fixed that they have sufficient help to take care of the poultry. Any very sudden, large increase in receipts, however, would make it difficult to handle the situation.

LATE SUMMER RADISHES

Now is the time to spade up a small section of the garden and thoroughly prepare the soil for some late radishes. Since the radish is a quick maturing and hardy plant the white Vienna and Chariers varieties can be planted at this time without any danger of them becoming pithy. The vegetables are especially delicious and every farmer should have some in his garden this fall.

The employee who does not realize that he is working for himself, no matter who pays him, will not secure rapid promotion.
